## Big Mining Deal Made For Property At Devils Elbow Up Stikine River

### City Fathers Hold Meeting

The City Fathers held their regular monthly meeting last Thursday evening all of the councilmen being present except Frank Spalding who is away from town. Mayor Grant was in the chair. Chairman Sorset of the Water Committee reported that the work on the dam was progressing in very fine shape and that the crew at work were making a fine showing and that it was hoped that another month would see the dam well on towards completion. The presentation of claims took up most of the time of the evening and they were all ordered paid. The Street Committee were asked to see that stringers were laid on the new street to be out from the beach up to the baseball grounds and that the ball boys would attend to the laying of the planking. Another important matter taken up by the council was the reading and passing of a contract between the town and Mr. Duncan McKinnon for the use of the lot on which the fire station is located. The town agrees to pay the sum of one dollar per month for the use of said lot for that purpose.

The contract calls for payment twice a year and can become void at any time by a thirty days written notice on the part of either party. The contract was accepted as read and signed.

### Tyconda Leaves For Cook Inlet

After a stay of a month here the river boat Tyconda left last Monday morning for Cook Inlet where they will operate this summer. The Tyconda is operated by the M. & H. Transportation Company, Capt. J. H. Maugan and Capt. Holbrook, who have made many friends during their stay in Wrangell, and all of whom wish them the best of success on their trip North and hope to have them with us again in the spring as the intention now is to return here early next year and operate on the Stikine.

A. Varet has opened his picture stand with certainly one of the greatest bunch of Wrangell and Alaska views that has ever been seen in the country. The display will certainly catch the tourists and Wrangellites to take a look over and see some of the beauty spots of the vicinity.

### J. G. Galvin and Sam Silverman Buy Property For Seattle Capitalists Will Develop Property As Soon As Possible.

One of the biggest deals that has ever been turned in Wrangell came to a close last Tuesday evening when a company of Seattle capitalists represented by J. G. Galvin and Sam Silverman, purchased the property of the Stikine Mining Company at Devils Elbow, about one hundred miles up the Stikine River from Wrangell. The owners of the property were L. Dixon and John Boderl, of Telegraph.

This is the property which was inspected last month by Mr. Galvin and Silverman, who returned to Seattle and made a favorable report on the claims and which resulted in the acquiring of the property. The sale price was not made public but it is known to be several thousand dollars. The property is not bonded to the new company but is an out right

The property was located three years ago by the former owners who have only partly

prospected the large body of ore. Three claims are in the group. The property is situated on the mountain side just above Klutchman's Canyon at Devils Elbow about one hundred miles from Wrangell. Assays of the ore runs \$193 in silver, lead and a trace of gold, also there is considerable zinc on the property but the extent is unknown.

Mr. Galvin and Mr. Silverman are both well known all over Alaska in the mining world having been associated with practically every large mining camp in the Territory. Mr. Galvin was an extensive operator in the Nome district and Mr. Silverman will be remembered as the man who developed and built the Hadley smelter and mines of that section. Such men as these taking hold of this property means that something is going to be developed. Mr. Galvin will send a

interview as to the prospects for this summer they made the statement; "We intend to develop the property as soon as possible and a crew will be put to work at once. We know about what we have and it is going to be a big thing. We expect to spend some 50 or 60 thousand dollars before we will be able to produce anything. We will build over a mile of areal tramway and are going to put in a large concentrating plant. We are backed by Seattle capitalists and the war will not effect us one bit.

This can be placed as the start of the development of one of the richest sections of Alaska, and while this property is below all of the bad water on the Stikine River, being this side of the Grand Canyon, and is very accessible by water from Wrangell.

Mr. Galvin left last night for Seattle where he will organize the company for the development of the property, and Mr. Silverman left this morning on the Winifred for the property and is taking a crew of eight men back with him to start the work for the summer.

### Sons of Norway Honor Alaskan

The Sons of Norway for the district which includes all the Pacific Coast States, Alaska and British Columbia, in annual convention here, elected T. H. Kolderup, of Seattle, president, and K. L. Stenberg, of Petersburg, Alaska, vice-president. Astoria was chosen as the place of the convention for next year.

### Steamers Will Use Alaska Time

The Alaska Steamship company has notified its captains and agents that hereafter all notices of the time steamers are due to sail shall be announced in the local time of the port in which the vessel may be. The absence of a rule to this effect in the past has led to many a misunderstanding.

Dawson, May 30.—The steamer Tanana enroute from Whitehorse hit a rock and sank in shallow water on Thirty Mile river. The steamer Dawson has gone to the rescue. The water is very swift at that place but the passengers are believed to be safe.

Juneau, May 28.—After having been given up for lost, P. McGonagal, a miner of this city, was brought here today from Yankee Basin in a weakened and dangerous condition, having been lost in the woods back of Yankee Basin for twelve days, during which he lived on a diet of leaves and dried berries.

Home of big shows, the Rink. Get the habit, the Rink.

### Fire Boys Re-organize

The Wrangell Fire Department met in their regular meeting last Monday night. As this was the regular election date, after other business was over the election was held. Ole Horgheim has the honor of being the first Captain of the department to be elected since the reorganization, and George Sylvester the first Lieutenant.

The officers under the new by-laws are:

President, J. G. Grant, Secretary, Paul F. Stanhope, Treasurer, P. C. McCormack, Trustees: J. H. Wheeler, Harry Gartley, J. E. Worden, Chief, Oscar Carlson, Asst. Chief, John Hagstrom, Examination Committee: Paul F. Stanhope, R. Hall, and J. H. Wheeler, Finance Committee: J. E. Worden, H. Gartley, H. Coulter, Grievance Committee: Chief Carlson, F. Gingrass, J. Hagstrom, Company No. 1 Captain, Ole Horgheim, Lieutenant, George Sylvester, Captain, R. Gingrass, Lieutenant, N. Nussbaumer.

## Printing Point Does Not Bob Up and Down

In an L. C. Smith & Bros. Typewriter the point on the paper which is to receive the type impression is stationary at the instant the type hits. The carriage does not bob up and down when the shift is made to write capitals.

Why?

Because the type is shifted—not the carriage.

The only movement of the carriage is back and forth on its closely adjusted ball bearing runways—and this does not take place while the print is being made. There is no lifting of the carriage.

This is one reason why L. C. Smith & Bros. type-writing is free from blurs and every letter in the right

Our wealth is ten times that of Italy, eight times that of Austria and four times that of France. These leading European countries are now tearing at one another's vitals and destroying property much faster than they can create it. Hence all Europe is today actually moving backward while the United States is sweeping swiftly forward to a state of still more opulence. Ours is the land of plenty, of peace and of opportunity. These three factors are aiding powerfully in persuading the individual investors of Europe to hold fast their American securities since here is the spot where their capital will be freest of perils and surest of winning a large reward.

## Will Form Athletic Club

The public meeting called last Sunday afternoon to decide the question of a base ball club for Wrangell, failed to materialize on account of steamers arriving at the meeting hour, so the meeting was postponed until Tuesday night when a large crowd attended and a rousing meeting was held. The following are the minutes of the meeting.

Pursuant to a call for a public meeting to decide whether Wrangell should organize a base ball club or athletic club at this time, a large crowd met in the Town Hall at 7:30 p. m. June 8, 1915. The meeting was called to order by Paul Stanhope who stated that the meeting was called for the purpose of getting the ball club started in some kind of shape, and asked that a chairman of the meet be elected. Mr. J. G. Grant was duly elected chairman of the meeting and Paul Stanhope secretary. Chairman Grant then asked the opinion of every one present on the matter and their answers were as follows: Mr. Lewis stated that he wanted to see a club organized; Mr. Edison stated that he wanted to hear from some of the ball players; Mr. Butler stated that he thought it best that we should organize an all round athletic club to handle all sports; Mr. Wheeler stated that he would like to see an all round athletic club; Mr. Gingrass stated that he was not a ball player but would join an all round athletic club; Mr. Nolan stated that he thought as Mr. Gingrass did; All others present stated that they were in favor of the movement; Chairman Grant stated that he thought it best to organize for all kinds of sports as the Wrangell Athletic Club.

Mr. Gingrass made a motion to the effect that the Chair appoint a committee of three to draw up by-laws and regulation for an Athletic Club and present that at another meeting the motion was seconded by Mr. Wheeler and carried. Chairman Grant then appointed on that committee Dr. Pigg chairman; Wm. Lewis and Paul Stanhope. Mr. Lewis asked to be excused and Mr. Nolan was appointed in his place. There being no further business to come before the meeting a motion to adjourn carried. - Paul F. Stanhope, Secretary.

The Department of Commerce announces that the trade of Alaska has doubled in quantity and value the trade of ten years ago. The trade last year was sixty million dollars and the indications are that for the current fiscal year it will reach one hundred millions. The increase of last years trade over the trade of the previous year was four millions. Her shipments, or exports, were forty millions, including fourteen millions in gold and twenty millions in fish.—Commer.

His Real Need.  
"Young Jones says that all that he needs is a start."  
"No. What he needs is a self starter."—American Lumberman.

Not Her Quarrel.  
The fact that corporal punishment is discouraged in the public schools of Chicago is what led Bobby's teacher to address this note to the boy's mother:

Dear Madam—I regret very much to have to tell you that your son Robert idles away his time, is disobedient, quarrelsome and disturbs the pupils who are trying to study their lessons. He needs a good whipping, and I strongly recommend that you give him one. Yours truly,  
MISS BLANK.

Bobby's mother responded as follows:  
Dear Miss Blank—Lick him yourself. I can't stand at him. Yours truly,  
MRS. BLANK.

### Clippings From Our Exchanges

A sawmill is being installed at Portage Bay for the purpose of sawing 2,000,000 feet of lumber for the government railroad.

Joseph P. Haller, who operated a salmon cannery in Bering Sea, Alaska, in 1878, died in San Francisco, June 1st, 1915. He had retired from business.

For beating a dog a man was fined \$25 and costs, amounting to \$100 in all, and went to jail because he hadn't the money to pay it, and another man beat up a girl and paid a fine of \$25. The fine was inflicted by a Cordova magistrate, and the Cordova Alaskan comments on the "new standard of values" established by the local D. G.erry.—Iditarod Pioneer.

July 19 has been set as the date for the hearing of the case of the United States vs. The Bering Commercial Company. The case is concerned with setting the matter of possession of a certain fishing station located on Akutan island and the decision rests upon the ability of the Bering Commercial company to prove that they were in possession of the land concerned before the passing of the organic act on May 17, 1883.

The news came on the Evans that the steamer Seward is now lying at Cordova wharf but is jisted so badly that her rail is under water. The cause of the trouble was the mushy nature of the ore which she had taken on at one of the mines. The captain has wired outside for instructions as it is feared that any attempt to handle the cargo might cause a disaster to the vessel. It is thought likely that she will have to be beached.—Gateway.

ical power, registered in the  
territory of Alaska and not paying  
a license or tax elsewhere in the  
United States, and river and lake  
steamers and barges, as well as  
transportation lines, doing busi-  
ness wholly within the territory of  
Alaska; \$1 per ton on net tonnage  
custom-house measurement, of  
such vessel.

It is provided that person or cor-  
porations subject to the act shall  
on or before July 1, 1915, apply  
for license (and pay tax if a fixed  
sum) for the calendar year ending  
December 31, "and all taxes for  
the current year shall be calculated  
for the year beginning January 1st  
and ending December 31st, 1915."

Forms of applications, licenses,  
etc., are to be furnished by the  
territorial treasurer and distributed  
to the public through the offices of  
the clerks of court and marshals.

## A Forest Fire Near Petersburg

The novel sight of a forest fire  
has attracted attention in this vicin-  
ity during the week. The fire is  
said to have started a couple of  
weeks ago, and is between Muddy  
river and Thomas Bay, on the  
south slope of the foothills about  
ten miles from salt water. Altho-  
ugh the fire covers a considerable  
area, it is not considered probable  
that it will damage timber to any  
great extent; but merely burn the  
underbrush on the dry southern  
slopes.—Report.
